Motion approving the recommendation was made by Dave Todd, seconded by Chris Hunt. Motion passed unanimously.

Nominating Committee Report

Nick Gragnani summarized the following Nominating Committee’s STARRS Sub-Committee recommendations:

Emergency Medical Services

Aaron Hasheider, Lieutenant/Medical Officer, Clayton Fire Department

Urban Search and Rescue

Christopher Harris, Assistant Chief, St. Clair Special Emergency Services

Mario Montero, Fire Captain, City of St. Louis Fire Department

Motion approving the sub-committee recommendations was made by John Nowak, seconded by Jon Belmar. Motion carried, all voting aye.

He also summarized requests for removal of the following individuals from their respective committees:

Hospital

Kelly Zara, SSM Healthcare

Mass Fatality

Glenn Craig, Florissant Valley Fire Protection District

Motion approving the sub-committee removals was made by Chris Hunt, seconded by Dave Todd. Motion carried, all voting aye.

OTHER BUSINESS

Dale Chambers, STARRS, advised that the FEMA Complex Coordinated Terrorist grant award has been delayed, with no release date identified.

He also advised that FEMA would be facilitating an Integrated Emergency Management Course in the region from August 28 through 31, for 80 invitation-only attendees. He reported that FEMA representatives would be in the region May 16 through 18 to do a pre-course assessment and site selection, and he advised that 5 to 6 volunteers from the across the region would be needed on the morning of May 16 to be part of a planning team. He added that the FEMA team could possibly provide a briefing of the course at the May 18 STARRS Board meeting.

NEXT MEETING & ADJOURNMENT

The next STARRS Board of Directors meeting is scheduled for Thursday, May 18, 2017 at 11:30 a.m., in the auditorium of St. Louis City Fire Headquarters.

Subject: Regional Security Expenditures

Date: May 15, 2017

Staff is requesting authorization to expend funds in support of regional security that will improve the region's disaster preparedness and response capabilities. Funding will come from the U.S. Department of Homeland Security's Urban Areas Security Initiative (UASI) and the Assistant Secretary of Preparedness and Response (ASPR) Hospital Preparedness grant programs. Attachment A summarizes this purchases totaling **\$160,422**. Also attached is a summary description of all budgeted expenditures from the UASI grants (Attachment B).

1. **Self-Contained Breathing Apparatus (SCBA) Cylinders** – We are requesting approval to purchase 96 Scott SCBA Cylinders for the five USAR Teams and seven hazmat teams that are staged in the St. Louis region. The existing SCBA Cylinders are nearing the end of the manufacture's serviceable life and must be replaced. Total cost will not exceed **\$126,681**
2. **SCBA Air-Paks** – We are requesting approval to purchase of three Scott Air-Paks for the Madison County, Illinois Hazmat Team. The Air-Paks are complete SCBA ensembles consisting of the cylinder, harness, facemask and regulator. Total cost will not exceed **\$17,241**
3. **Butyl Respirator Hoods** – Hospital emergency department personnel must have the appropriate protective clothing immediately available in order to prevent becoming contaminated while treating victims of hazardous chemical incidents or when caring for patients that may have come into contact with an infectious disease. The hospitals currently have powered air purifying respirator (PAPR) ensembles which are used for this purpose as well as in training and drills. Butyl respirator hoods, which are part of the PAPR ensembles, where purchased 10 years ago are currently reaching the end of their service life. In order to assist the hospitals with maintaining their decontamination capabilities, we are requesting approval to purchase 40 butyl rubber hoods for the PAPR ensembles that will be distributed to the Missouri hospitals. These purchases will allow treatment to be provided while hospital staff is working in contaminated atmospheres. Total cost will not exceed **\$16,500**.

The purchases described in this memo are being made in accordance with the agency's procurement policy.

Staff Recommendation: Staff recommends that the Board approve the expenditure of funds as follows:

- for the purchase of 96 Scott SCBA Cylinders from Leo M. Ellebracht Company in an amount not to exceed **\$126,681**;
- for the purchase of three Scott Air-Paks from Leo M. Ellebracht Company in an amount not to exceed **\$17,241**; and,
- for the purchase of 40 3M butyl rubber respirator hoods from REIS Environmental in an amount not to exceed **\$16,500**;

for a total amount not to exceed **\$160,422** from the UASI and the ASPR Hospital Preparedness grant programs.

Critical Response Teams				
A key goal under the UASI Strategy is to strengthen our critical response teams. We have largely accomplished this goal with hazardous materials and heavy rescue equipment and training. These teams are capable of responding to terrorist attacks, industrial accidents or natural disasters like earthquakes and tornadoes. Another element of critical response includes medical supplies for mass casualty incidents. The MCI trailers represent the first stage of meeting this need for the EMS community. Also included is equipment for Incident Management Teams that will consist of emergency responders from all disciplines. These mobile teams are activated to support emergency responders managing an event where the event continues over many hours or days.	\$18,524,651	\$18,296,886	\$143,922	\$83,843

	2,355,312	2,211,194	0	144,118
Law Enforcement Tactical Team Equipment				
There are 7 law enforcement tactical response units in the region which need communications, tactical lights and personal protective equipment. Three of the teams will receive tactical vehicles and Metro Air Support will receive a helicopter and other equipment to support response to a variety of terrorist incidents.	8,783,351	8,726,050	0	57,301
	4,514,819	4,514,819	0	0
Interoperable Communications				
A variety of projects come within the description of Interoperable Communications. Radio caches, satellite phones and video conferencing and the Land Mobile Radio Communications Plan are included, as well as a microwave tower backbone system.	8,618,026	8,579,774	0	38,252

The Virtual EOC				
The virtual EOC strengthens regional collaboration on a day to day basis through a web based interactive network that links the region's eight EOC's and numerous other users for planning, preparing for and responding to an incident. In future years we hope to add a robust Geographic Information System capability.	5,278,534	5,278,534	0	0

	Total Budgeted	Prior amount approved by EWG Board	This request	Remaining to be approved
Emergency Patient Tracking	\$2,422,320	\$2,422,320	\$0	\$0
<p>Patient Tracking allows emergency medical services and hospitals to rapidly enter data about a patient into a secure wireless web-based tracking system. The data includes identification, triage condition and transport information and allows the hospitals to balance patient loads and provide information to families.</p>				
Universal ID Project	557,812	557,812	0	0
<p>This system provides a uniform identification card for fire, law enforcement and volunteers with credential information embedded in the card.</p>				
Expand Public Health Capabilities	2,846,739	2,764,402	0	82,337
<p>Local public health agencies are working to prepare the region and protect citizens and first responders in the event of bioterrorism and natural diseases. Work is underway to establish an automated syndromic surveillance system for the early detection of naturally occurring or man made disease outbreaks.</p>				
Mass Casualty Equipment, Medical Supplies and Software for Hospitals	2,249,599	2,177,244	0	72,355
<p>Hospitals are preparing the region for a response to a medical surge or mass casualty incident (MCI) by staging emergency response trailers that are equipped with medical supplies, cots and bedding at selected hospitals for deployment anywhere in the St. Louis region. In addition, the hospitals will dispense medicine to employees, their families and patients in the event of a large-scale bioterrorist or naturally occurring illness. The hospitals have software that will help with the dispensing of this medicine and the management of an MCI when it occurs.</p>				
Disaster Incident Management System for Hospitals and Tactical Response	\$2,446,808	\$2,270,308	\$0	\$176,500
<p>The disaster incident management software system provides a tactical incident management capability for hospitals and response teams that includes federally required forms and plans. For the hospital systems it also includes a regional bed tracking capability.</p>
